

Instructions: Write the letter from the descriptions and the object name below the correct object.

Hint: Search for the artifact number in the [Marius Barbeau web module](#).

1. III-I-464

G. Deer call

2. 77-1102

3. 69-30

4. 74-1160

5. 90-211

6. III-X-57.1

7. 72-1041

8. IV-X-307

9. 77-1351

10. 83-975

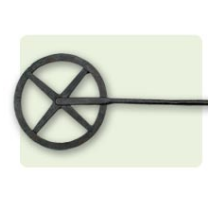

11. 77-517

12. 69-224

13. 77-1200.1

14. 77-1143

15. 71-264

- A. This heart-shaped tin **escutcheon** fit around a keyhole to protect the door.
- B. With this **digging stick**, people dug for underground roots and tubers to eat.
- C. A farmer used arm-power and this **scythe** to cut his oats and wheat.
- D. Fishermen used this oak **fishing net needle** to repair their nets.
- E. Pour cream inside this wooden **butter churn**, turn the crank and, voilà, butter!
- F. Little girls played with this toy **cradleboard** by putting a baby doll inside.
- G. Hunters blew through this **deer call** to attract deer.
- H. With this **root cutter**, farmers cut up turnips and other root vegetables to feed their livestock.
- I. Maple syrup makers used this **maple syrup testing spoon** to see if the syrup was ready.
- J. These **outside calipers** measure the thickness and outside diameter of objects.
- K. This **blueberry-picking scoop** has wire teeth to rake through the bush and a container to catch the berries.
- L. With this wooden **weather vane**, people could tell the direction of the wind.
- M. A wheelwright used this **traveler** to measure the diameter of a wheel that needed to be replaced.
- N. Weeds had no chance against this Hungarian **weeder**.
- O. Without a doubt, this hand-carved wooden **potato masher** did its job well.
